

We Show Up

We Bring It

We Do It Right

North Memorial Hospital

North Memorial Hospital, located in Robbinsdale, Minnesota, had a damaged curtain wall due to a car driving into the building.

THE CHALLENGE

Since North Memorial is one of only four Level 1 trauma centers in Minnesota, it was vital that the repairs could not impact the hospital's day-to-day operations. This was an emergency service project that needed to be completed quickly and efficiently.

OUR SOLUTION

Collaborating with DJ Kranz Construction, the team at Brin Glass Service responded immediately to get the correct Kawneer curtain wall components and Viracon Glass necessary to repair the damaged area.

RESULTS ACCOMPLISHED

Brin Glass Service was able to act quickly and diligently to get the glass repaired to match the exact, previously-undamaged curtain wall design with minimal disruption to the hospital's operation.

Why was Brin Glass best suited for the work?

Brin Glass Service was best suited for the work because our team was able to be on-site quickly to access the damage and make plans for the new glass installation. Our team was able to bring our best and get the projected completed smoothly and quickly.

"Bin Glass Service was able to perform the work necessary with minimal disruption to the Hospital's operation."
