

We Show Up

We Bring It

We Do It Right

## Luther Brookdale Chrysler, Jeep, Dodge, Ram | Brooklyn Park, MN

Luther Brookdale Chrysler Jeep Dodge Ram is set apart from other dealerships when it comes to exceptional customer service and providing the people of Minnesota a hassle-free car-buying experience.

### THE CHALLENGE

The client's desire to expand and update the façade of the building presents a multifaceted challenge. This project involves not only enhancing the visual appeal and modernizing the exterior of the structure but also ensuring that the new design integrates seamlessly with the existing architecture.

### OUR SOLUTION

Our solution was to provide a new curtainwall system. This approach not only modernizes the exterior but also enhances the building's energy efficiency and aesthetic appeal. The curtainwall allows for larger expanses of glass, bringing in more natural light and creating a sleek, contemporary look.

### RESULTS ACCOMPLISHED

The result of our efforts culminated in a stunning transformation of the building's façade, featuring a radius wall and large, functional delivery doors. The radius wall adds a unique architectural element, enhancing the building's visual appeal and creating a distinctive, modern look.

### Why was Brin Glass best suited for the work?

We were uniquely suited for this project due to our extensive experience in designing and constructing radius walls. Over the years, our team has successfully completed numerous projects that required precise curvature and seamless integration of radius walls into various architectural styles.
